TILDEN DENIES HE HELD CASH

No Contributions for Lorimer's Election Paid to Him.

SAYS HE KNEW OF NO FUND

Withheld Books from Helm Committee Because He Knew There Was Nothing in Them Bearing on Subject.

Washington, June 29.—Edward Tilden, president of the National Packing company of Chicago, denied before the senate committee investigating the election of William Lorimer that he was the receiver, or custodian, of contributions to a Lorimer corruption fund.

Mr. Tilden was mentioned in the testimony of Clarence S. Funk, general manager of the International Harvester company, as the person to whom Edward Hines, of the Edward Hines Lumber company, asked Mr. Funk to send a \$10,000 contribution.

Mr. Tilden having denied any knowledge of allegations of corruption in Lorimer's election, he said that his company had not contributed any money nor had he ever received contributions from any person or corporation to be used in Mr. Lorimer's behalf.

Tilden said he was interested as a depositor and stockholder in two or three hundred banks in this country and Great Britain. He added that he was treasurer of about thirty corporations. He maintained five personal bank accounts in Chicago and New York.

"How many corporations are you president of?" inquired Senator Kenyon.

"I don't know," replied Tilden. At the request of counsel for the committee Tilden gave a list of the banks and packing corporations in which he was interested. The members of the committee also took an interest in the private and personal books kept by Tilden. These records, Mr. Tilden said, were "incomplete."

"Do you know anything about the allegations of corruption at Springfield when a United States senator was elected in 1909?" was asked.

"Nothing except what I read in the newspapers," Tilden replied.

Mr. Tilden said he refused to obey the order of the Helm committee of the Illinois legislature to produce his personal books and records because he regarded them as his private property and also because he assured the members of the committee that they contained nothing bearing in any way on the Lorimer case.

"I know," replied Mr. Tilden, "that there was nothing in my books bearing upon the election of Senator Lorimer. I made this statement under oath and did not regard it as fair for the committee to go through my books."

Rush Culver, former mayor of Marquette, Mich., John McLeod of Buffalo, Hugh McLean of North Tonawanda, N. Y., and William F. McKnight, an attorney of Grand Rapids, and former Democratic national committeeman, testified before Tilden was called. They all denied knowledge of alleged corruption in Senator Lorimer's election and stated that they had never heard Hines say that money had been used in Lorimer's election.

Ambassador Bryce called upon President Taft and the announcement was made following a conference between the two.

The final negotiations in the work of smoothing out the unimportant points of difference between the state department and the British foreign office will be begun at once and it is hoped that the treaty will be ready for submission to the senate at this session.

BISCUITS IN A JIFFY

Wheat from Field Becomes Pastry in Thirty Minutes.

Beloit, Kan., June 29.—What is thought to be the world's time record in harvesting, threshing, milling and making into bread, was made with wheat from the W. S. Gable farm, two miles west of town. The time consumed in doing this was exactly thirty minutes.

At 14 minutes after 3 the team started into the field with the header and one minute later the harvested wheat was in the threshing machine. At 23 minutes past 3 Mr. Gable drove his touring car up to the mill door and at 3:29 flour had been made from the wheat by the regular process employed by the Beloit Milling company. At 3:30 the flour was delivered at Walker Bro's bakery and their baker made biscuits that were taken from the oven at 3:34, just 30 minutes from the time the header went into the wheat field.

PRETTY LAWN WEDDING AT LAWRENCE HOME THIS AFTERNOON AT 4

A pretty lawn wedding took place this afternoon at 4 o'clock at the home of Mr. and Mrs. J. M. Lawrence of 704 Second avenue when their daughter, Florence, was united in marriage to Frederick Bancroft of Detroit. The effective Episcopal ring service was performed by Rev. Terrin, pastor of the Campbell Avenue Methodist church of Detroit, in the presence of a company of fifty guests. The bride wore a simple gown of white silk with pearl trimmings, and was attended by her sister, Miss Gertrude Lawrence, who wore a dress of blue. The little Misses Margaret and Charlotte Lawrence of Detroit were ring bearer and flower girl respectively. A pretty corner of the spacious lawn was chosen as the place for the performing of the ceremony which with its trees and shrubbery formed an effective background for the bridal party. A wedding supper which followed the ceremony was also served on the lawn.

Mr. and Mrs. Bancroft left immediately for a trip to Buffalo and Niagara Falls and will be at home on Helen avenue after August 1.

The bride is a graduate of the Washington normal training school and for the past five years has been a teacher in the Detroit schools. The groom is connected with the Packard Motor Company of Detroit.

Badly Bruised By Kick Of Horse

Harry Snyder who resides on East Congress street met with a serious accident this noon while unhitching his horse in the alleyway in the rear of the E. L. Sanderson coal and wood store which resulted in his face and head being badly cut and bruised. Just how the accident occurred is not known but it is thought that the horse became frightened at some fire crackers which were being fired off near by and kicked him in the head as he was found lying under the wagon by Claud Pooler who happened to be passing through the alley later. A physician was called and the wounds dressed and the man removed to his home. Although the wounds are quite bad it is hoped that nothing more serious will result.

CHILD IS DEAD AFTER BEATING

Terrible Cruelty Is Charged to California Woman.

COUNTRYSIDE IS AROUSED

Stepmother and Stepbrother of Dead Girl Rushed to the County Jail for Safety—Assert That Victim Killed Self.

Chico, Cal., June 29.—Helen Rumbel, fourteen years old, beaten for neglecting a task, is dead in her home near Gridley. Mrs. Emma Rumbel, her stepmother, and Arthur Lewis, her stepbrother, were held by a coroner's jury to answer to the charge of murder and have been rushed to the county jail at Oroville for safety. The countryside is half-crazed with rage.

Lewis and Mrs. Rumbel reported that the girl had committed suicide. An inquest instituted immediately developed that the girl's body was a mass of bruises and that her face in death remained black from the choking she had received.

The child's father died two months ago.

After consulting with a counsel, Mrs. Rumbel expressed belief that the girl broke her own neck in frantic struggles to free herself from a 2x4-inch scantling to which she had been bound. She asserted that punishment was necessary because of what she termed Helen's stubbornness, but admitted that she had overestimated the endurance of the child.

When she became convinced that the girl was dead she untied the ropes and summoned a physician who testified that she told him the case was one of suicide, and that she had cut the girl down.

A medical examination showed that the victim had lived several hours after the flogging. Her torso was a mass of welts, her head was stripped with flesh scars and torn, and flesh on her legs showed where strap buckles had cut into them.

Ball for Mrs. Rumbel and Lewis was refused by District Attorney Jones.

LABOR LEADERS IN CONFERENCE

Plan to Raise Money for Defense of McNamaras.

GOMPERS ON CONTEMPT CASE

Says that Justice Wright, in Appointing Committee of Attorneys to Investigate Bucks Matter Shows Vindictiveness.

Indianapolis, June 29.—Leaders of the American Federation of Labor and trade unions are gathering in Indianapolis for a conference. The conference is to decide on a plan for raising money for the defense of John J. McNamara and James B. McNamara, who are charged with complicity in dynamite outrages at Los Angeles.

Samuel Gompers, president of the A. F. and L., arrived from Washington, accompanied by Frank Morrison, secretary of the A. F. of L., and Thomas F. Tracy and G. P. Foster, of the executive council of the federation.

Mr. Gompers refused to discuss the McNamara case, or the means that may be adopted to raise the defense fund. He talked freely on the contempt case at Washington, directed against himself, John Mitchell and Frank Morrison. Referring to the action of Justice Wright, of the supreme court of the District of Columbia, in appointing a committee of attorneys to investigate the action of the labor leaders in the Bucks Stove company case and the finding of the committee against the labor men, Gompers said the whole proceeding showed a spirit of "personal vindictiveness on the part of Justice Wright."

"Any judge with a decent regard for fairness and impartiality would have allowed the case to remain in the position in which the supreme court of the United States placed it after it had been reversed," said Gompers.

"Justice Wright, in pursuing this matter, was displaying his personal spleen. He had previously exhibited it when he rendered his decision which later was reversed. He spent two hours and a half in exhorting Mitchell, Morrison and myself, denouncing us as though we were footpads, house-breakers or highwaymen."

U. OF M. DIPLOMAS BROUGHT IN AS OF OLD FOR GRADS

Ann Arbor, Mich., June 29.—As he has done each year since 1858, George Halter today, commencement day, brought in the diplomas for the graduates of the University of Michigan.

Shortly after the close of the commencement address this little grizzled old man pushed a great rack containing the rolled up parchments upon the stage, and after the exercises ended he removed the rack. When University Hall was built the number of graduates from the university had increased to such proportions that it became necessary to provide means of bringing the diplomas into the hall, and Mr. Halter invented the rack. The one which was used Thursday is the third which Mr. Halter has built, and on it was loaded something like 1,000 diplomas. Although in the olden days he was employed on the campus, his only duty now is to push in the rack of diplomas and remove the rack after the exercises close.

MOTION FILED TO DISSOLVE INJUNCTION

A motion was filed by the attorney for the D. J. & C. this morning asking that the injunction filed with the county clerk in Ann Arbor by the City of Ypsilanti Wednesday against the company be dissolved and citing eight reasons why they considered there was no cause for granting the injunction. These reasons are given in substance as follows: (1) there is no cause stated for granting an injunction; (2) there is no equity on the face of said bill; (3) the injunction was granted contrary to law; (4) the injunction nullifies the order made by the Michigan railroad commission issued in said case; (5) said commission has complete and adequate remedy at law; (6) said injunction interferes with rights of said company in its franchise with the City of Ypsilanti attached to the bill filed in this case; (7) the injunction preventing said defendant from strengthening and repairing said bridge in accordance with the order of the commission, is contrary to public policy and in contravention of the act established by the railroad commission; (8) said bill gives court no jurisdiction to grant any relief on the final hearing.

The authors of the bill of complaints filed by the city of Ypsilanti hold that the attitude taken in this motion by the electric railroad company is untenable. In the first place Judge Kinne would not have granted the injunction if the cause had not been stated. The reasons for his granting it are shown fully in Paragraph 3 of the bill of complaints. Lee N. Brown, attorney for the city, holds that a legal standpoint the city has a perfect right to ask that the D. J. & C. be restrained from building a bridge across the river without the consent of the city. As to the proper remedy to resort to in such a case, an injunction is the only possible remedy and it had to be administered with considerable promptness.

As to the intimation that the city has in any sense or in any degree broken faith with the D. J. & C., the streets of the city are under the direct control of the city, and any right which the trolley company has therein has been granted the company by the city in its franchise.

The seventh reason put forward for wishing the injunction dissolved would seem particularly to be contrary to fact. Paragraph 5 of the bill of complaints restrains the defendant only from "building, constructing, or erecting a bridge of any character whatever to cross the Huron," but there is nothing which would indicate that repairing should not be done.

As to the serving of the papers, Attorney Brown said that they should be served on Asst. Supt. Allen for the company, on a conductor on one of the cars and that such other service should be made as would legally bring into court the two defendants, the D. J. & C. and the D. U. R. It is reported that when first approached the D. J. & C. in explaining their operations at the bridge said they were simply strengthening the structure.

A hearing before Judge Kinne will be held upon this motion to dissolve the injunction on Monday, July 3.

MANY YPSILANTI NAMES IN U. OF M. LIST OF GRADUATES

Quite the most vociferous applause which greeted the conferring of degrees this morning at the University of Michigan was given when Governor Chase S. Osborn was given the degree of Doctor of Laws.

Wilbur of the Normal faculty got his master's degree, for which he has been studying the past year. Carl Jenness Coe was among those on whom the master of arts degree was conferred.

IT DOES LOOK STRANGE.

It does look strange that the D. J. & C. railroad should bring on a pile-driver and drive piles a good share of the way across the Huron river and bring a lot of railroad iron and fill the street fairly well up with long piles without asking permission to do so of the city; and it does look strange that all of this work should go on and the D. J. & C. stop traffic on the main thoroughfare in the city and the city not apparently know what was going on and not have anything to say about what was going on until it became necessary to issue an injunction, restraining the railroad company from monopolizing the streets and obstructing the flow of the Huron river, so as to produce an ice-jam in all probability this coming winter which might be sufficient to sweep the bridge away.

The city officials of course should give the city the benefit of every doubt, and they have a sufficient number of precedents to put them on their guard, where railroad companies have stealthily taken steps to secure a legal advantage which multiplied the difficulties of the public in enforcing their rights in the future.

The Congress street bridge should be the most beautiful and substantial bridge in the city, because it is the most prominent of all and because it spans the river on our busiest street; and we ought to have the full width of the street for the bridge, because of the added traffic of the street-car having to pass over it. This adds to the danger of horses becoming frightened and the consequent need of more room on the bridge for the heavier traffic and the further need of two well-protected sidewalks for pedestrians.

We can see where the D. J. & C. might wish to take the precaution of strengthening this bridge to protect their cars and themselves against any possible damage suits by reason of a possible catastrophe, but for the company to assume to take control of a street seems more than passing strange. We cannot believe yet, until the evidence is all in, that they did not have some tacit permission from somebody in authority. But the city is right in insisting upon prescribing what they may and what they may not do in any of the public streets of this city, subject only to rights which the city has already granted to this company in the streets as provided in its charter. The railroad company may not desire to pay half of the cost of the construction of such a bridge as is needed at this point. But they seem to have contracted to do so, and they should stand by their contract. And in the meantime the public should be protected in every possible way.

MUSKEGON WILL BE SANE

Amusements Will Replace Firecrackers July 4.

Muskegon, Mich., June 29.—After several years of agitation Muskegon is going to have a sane Fourth of July. The city council decided to prohibit the sale of firecrackers over five inches in length. Members of clubs, schools and societies, have arranged for amusements to take the place of the noisemakers.

In the morning a parade will be held. Prizes will be given. In the evening fireworks will be set off on Pigeon hill, Lake Michigan park.

MEET AFTER 38 YEARS

Long-Parted Brother and Sister Go to Mother's Grave.

Grand Rapids, Mich., June 29.—A sister and brother who had not seen each other for thirty-eight years, left here, bound for Allegan county, where they will view the grave of their mother.

Mrs. Arterrie Tyrell, of Fowler, O., and Rufus F. Frary are the persons. Their mother died when they were young and they became separated. Mrs. Tyrell located her brother through the postal authorities.

SAYS TIME HAS COME, DIES

Woman 108 Years Old Lies Down on Couch and Passes Away.

Lansing, Mich., June 29.—"Well, I guess my time has come," said Mrs. Lachia Williams, aged 108, as she stood in the doorway of the home of her daughter, Mrs. Ellen Banister, talking to a neighbor.

With that remark she went inside and, lying down on a couch, passed quietly away. Mrs. Williams celebrated her 108th anniversary New Year's day.

NORMAL NEWS

J. P. Everett, of the mathematical department at the Normal, is taking advanced work in mathematics and psychology at the University of Michigan this summer.

The first series of lectures before the Normal summer school will be delivered by Professor Hodge on Thursday and Friday of this week and Monday of next. His subjects will deal with nature study.

The number of students classified on Monday was 1,050, which is about the usual number for the first day.

Miss Adella Jackson's lectures on primary methods began on Wednesday morning at 11 o'clock in the training school chapel.

F. L. Keeler, deputy superintendent of public instruction from Lansing, visited the training school Tuesday.

Prof. Frederick Alexander has returned from Cleveland.

Miss Grace Fuller left Tuesday for Lake Placid, New York, to address the economic association of which she is president, and which is holding its convention there. Miss Fuller will spend the summer in the Adirondacks.

Miss Sarah Arnett will teach in the domestic science department of the summer school in the absence of Miss Fuller.

The subject of Prof. Clifton Hodge's lecture at the Normal this evening will be, "How to exterminate the house fly." It will be illustrated. He will show the relation of the fly pest to many forms of disease, and will show how to avoid the tremendous cost which this nuisance entails. So successful have been the methods he advocates in Worcester, Mass., that people there do not need to screen their doors and windows. This free lecture is of particular interest to citizens.

The enrollment at the Normal Summer school has reached 1250.

Miss Genevieve Clark of Belleville leaves this week for Cambridge, England, to specialize in geography.

Mrs. Annis Gray and Miss Alice Lowden have returned from Saginaw, where Wednesday afternoon they appeared on the program of the Michigan State Music Teachers' Association. Mrs. Gray sang "Traum durch die daemmerung," Strauss; "Ich habe ein kleines Lied," Rungert, and "Der oede Garten," Hildach. Miss Lowden played Grieg's "Summer Leaves," and La Valle's "Butterfly." No encores were permitted, but their reception was most cordial and appreciative. They remained over last evening to hear Harold Brockway's program.

George H. Coverdale, superintendent of schools in Ueka, Montana, is visiting his sister, Mrs. H. Z. Wilbur, and is looking for teachers at the Normal for the Ureka schools.

Mr. and Mrs. H. Z. Wilbur and Dr. and Mrs. C. O. Hoyt attended the University commencement today.

NEWS FROM OVER THE COUNTY

SALINE

Saline, June 29.—Sunday at the home of Mr. and Mrs. Webb Depuy was held the reunion of the Lowe family. About twenty-nine were present, among them Mr. and Mrs. Conrad Lowe and Mr. and Mrs. J. L. McIntyre who have just returned from Florida bringing with them grape fruit and oranges which were very much appreciated by the relatives. Interesting letters were read from friends and relatives in Hillsdale, Detroit and Roman, Montana.

The several Sunday schools of Saline have decided to hold a Union picnic on the Fourth of July at the Arbeiter park. Several of the rural Sunday schools have been invited to join them.

Henry Rentchler broke his arm recently while working on Mr. Hertler's barn.

ARMINA GOULD.

Armina Gould was born April 26, 1879, in York township, about 1 1/2 miles south of Mooreville. When she was five years old her parents moved to the farm where they still live. October 26, 1898, she was married to William P. Griffen and lived on the farm adjoining her parents' until about four years ago when she with her husband and family moved to Detroit where they resided until her death.

Mrs. Griffen had been in very poor health the past two years and was confined to her bed about ten weeks before her death which occurred Friday noon, June 23. She leaves a husband, four children, Edna, Gladys, Walter and Allen, the oldest only 12 years old; her father and mother, Mr. and Mrs. Francis Gould; one sister, Mrs. Fred Richards, and one brother, Jay. The funeral services were held at the parents' home in York and Rev. J. F. Tree had charge of the services. Interment was in Saline Oak-wood cemetery. The friends present from out of town were: Mrs. Frank Small, Amanson Griffen and Mr. Rad-ke of Redford, Mr. and Mrs. U. J. Warren of Lake Ridge, Mr. and Mrs. Elbert Johnston of Milan, Mrs. Alice Squires and Mr. and Mrs. George Squires of Ridgeway, Mrs. John Knowles, Mr. and Mrs. Peter Hanlon and son Harold and Mrs. Ernest Mangus of Cone.

Willis, June 29.—A large number from Willis and vicinity took in the G. A. R. encampment at Ypsilanti. Cherries are plentiful and cheap. Mrs. Babcock recently had a slight stroke of paralysis.

David Russell, sr., is shingling his barn.

Miss Dickerson has been visiting her sister, Mrs. Herbert Roberts.

Mrs. James Long's health is improving so she is able to call on her nearest neighbors.

Mrs. George Russell and daughter Grace started east Wednesday for a visit.

AMUSEMENTS

The most terrific act in the history of circus thrillers, the double somersaulting automobile act, will be seen in Ann Arbor on Tuesday, July 4, as the climax of the Adam Forepaugh and Sells Bros.' circus. This is the Dante's Inferno of circus paralyzers. So-called thrillers of the past pale into nothing before it.

And the act is performed by a young French girl barely out of her teens. The heavy car with the gritty young woman at the wheel plunges down a steep incline with lightning speed. An upward curve at the terminal of the tracks sends the car up into the air, where it turns two complete somersaults before alighting on the runway fifty feet away.

Another thriller with the show, the beauty of which is inspiring, is known as the "Human Butterfly Act." It is a sensation of French origination and is presented by the famous Ty-Bell sisters. Holding by the teeth to almost invisible strands of steel the young women are lifted to the dome of the tent and there by means of hidden mechanism are made to circle, dart and fly through space with the grace of birds while multi-colored spot lights are directed upon their flowing robes.

The show now has 350 performers, the majority of whom are from European and Asiatic countries. There are 100 big acts on the program. The menageries is a wonderful zoological collection. The entire equipment of the circus is brand new.

COMFORTING WORDS.

Many an Ypsilanti Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Ypsilanti readers.

John P. Burkholder, 15 W. Congress St., Ypsilanti, Mich., says: "I had more or less trouble from my back and kidneys for some time and there was often a constant, dull ache across to stoop. That my kidneys were disordered and the cause of my trouble was shown by irregular passages of the kidney secretions. When I chanced to hear of Doan's Kidney Pills, I procured a box at Weinmann-Matthews Co.'s drug-store and upon using them as directed received great benefit. This remedy acted as a tonic to my kidneys and made me feel better in every way. There is no question about Doan's Kidney Pills living up to the claims made for them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and the loins that made it efficacious for me take no other.

Senator Cummins Presents
Reciprocity Amendments.

BORAH ALSO IN OPPOSITION

Census Committee Reports Favorably
Bill to Redistrict Country and
Provide for House of
433 Members.

Washington, June 29.—The senate
considered Canadian reciprocity for
about four hours and then adjourned.
Senator Cummins of Iowa, and Senator
Borah of Idaho, were the speakers.
Both opposed the reciprocity bill.

Senator Cummins proposed a series
of amendments to that measure which
comprehended a considerable widen-
ing of the purpose of that legislation
as asked by President Taft.

In general the Cummins amend-
ments provide additions to the free
list of the United States of practically
all the manufactured products arising
from the raw material furnished by
the farm, including meats, flours and
meals, prepared vegetables, prepared
cereals, maple sugar and sirup and
fruit juices.

In addition Senator Cummins pro-
posed the free admission from Cana-
da to the United States of coal of
all kinds and logs and timber, which
he declared to be the only concessions
demanded by him from Canada. The
amendments then provide also for the
free admission from Canada of agri-
cultural implements, portable and trac-
tion engines and boilers, automobiles,
iron and steel products and ores, cutlery,
clocks and watches, leather and
its manufactured products, and wool-
en, cotton and silk threads and clothes,
provided that Canada shall not main-
tain export duties or license fees upon
the exports of all the articles enumer-
ated in the bill, including wood pulp
and print paper and coal and timber
and logs, and also provided the presi-
dent is equally satisfied that trans-
portation rates upon imports from Cana-
da are not unreasonably low as com-
pared with United States products go-
ing the other way.

Senator Borah declared that the Re-
publicans who are supporting the bill
had completely changed front on the
question and taken the Democratic
view. He read from the Republican
platform and from text books in the
campaign handbooks, declarations to
prove what he had asserted.

Senator McLean of Connecticut, pro-
posed an amendment to the federal
constitution by a resolution which he
introduced giving the United States
power to legislate for the protection
of the migratory birds.

The census committee, of which
Senator LaFollette is chairman, con-
sidered the bill authorizing a reap-
portionment of the country for rep-
resentatives in congress on the basis
of population shown by the last cen-
sus. The committee voted seven to
three to report the bill favorably in
the form it came from the house,
which provided for a house of rep-
resentatives to consist of 433 members
and which would reduce the repre-
sentation of none of the states of the
Union. Senator LaFollette asked for
a week in which to file a minority
report. Senators DuPont and McLean
voted with LaFollette against report-
ing the bill favorably.
